

**Learn better, achieve more.**

## CUSTOM COURSE DEVELOPMENT

Site Online Learning provides end-to-end custom learning solutions that include; training needs analysis, content workshops, eLearning course development and constant support services for learners and trainers alike.

Today's modern learner wants content that is built to be short, visual, mobile, enabled, and social. Site Online's Custom Course Development allows you to control all of these aspects while providing the platform in which to easily make changes over time reflecting your evolving training requirements.

Our business model allows us to handle eLearning projects of any size, type and industry, offering competitive pricing for a high quality product.

### Relatable and relevant learning.

Create eLearning content that speaks directly to your audience. Use immersive, online scenarios based on real situations specific to your industry or workplace. In doing so, learners can better relate to content, immediately recognising how the learning experience impacts on a real-world events.

### Custom assessments.

Create eLearning content that speaks directly to your audience. Use immersive, online scenarios based on real situations specific to your industry or workplace. In doing so, learners can better relate to content, immediately recognising how the learning experience impacts on a real-world events. Tailored assessments ensure that each course targets the specific eLearning goals required by your organisation. Assessment modules can be customised to provide meaningful feedback identifying where and why students went wrong, laying out the correct decision process.

### Rapid development.

If your organisation needs an eLearning solution fast and at a fraction of the cost, we have an extensive library of existing elements and templates that can be adapted to create a course which suits your needs.

### Control and edit your content.

With constantly shifting business requirements and regulatory legislation, Site Online Learning provides all course files to your organisation allowing you to edit and use the authoring tool of your choice, giving you the ability to supply your employees with the most up-to-date information and training processes.

### Reduced licence and maintenance costs.

Custom courses remove the need to pay monthly licence or royalty fees. While there are initial costs, the long-term investment of a custom eLearning course delivers superior value to your business.

### Customisable course multimedia levels.
